## Course Curriculum

Our course curriculum is structured methodically. It is integrated and enhances success. It approaches with expertise teaching aids and modern learning facilities. The faculties are well known and excellent to inspire a wholesome studying and practical knowledge. Since pharmaceutical professionals play a pivotal role in the healthcare industry they are taught the best competency in this profession.

## Placement

Courses in EIPS assures for a great foundation for an aspirant in pharmaceutical industry. Armed with quality academics and research the placement cell of EIPS is all set to support the candidates to carve a niche career.

Campus placements interviews are a great exposure for the students as they are introduced to the ways of the industries directly. The companies and the premium placement agencies visit the institutions to select the candidates for recruitment judging their abilities on given criteria.

Placement is thus an important aspect of an institution who offers professional trainings. The layout of the chosen career is then clearly seen by the aspirants. Our placement procedure guides our pass outs to a great extent.

Proper training to face interviews, gain confidence, handling stress during counseling sessions or picking up leadership during a group discussion are provided to grasp the skills for success.

EIPS also receives requirements forwarded by the relevant organizations. The resumes of the passed out students from our institutions and of the current batches are stored in our databank. They are sent emails regarding the information of vacancies and accordingly asked to send across their resumes. They then are called for an interview and on successful attempt join the reputed concern.

EIPS runs a corporate consultation to streamline the aptitude of the students and hence help them to choose the right attitude and gain confidence all through the interview procedure. EIPS do offer the opportunity to their pass outs to work with the parent company JVAG Pharma Consultant and VIVA Test Research and Development Pvt Ltd.
